### To Whom it may Concern

Master karthikeyan is a 9 years old child with primary immunodeficiency and at the same time has CNS stroke. He needs monthly intravenous immunoglobulin (Ivlg) infusion @20 gm/month for another 3 months, the cost of which comes around Rs 35000-40 000/month. Since it is a salvageable condition and child has already been admitted multiple times AT St. Johns Hospital and till now parents themselves have beared the entire cost of treatment on their own.
