Subject: Information regarding patient: Karthikeyan (Hospital No. 4362881)

This is regarding our young patient named Karthikeyan, a 9-year-old boy under the treatment of paediatrics. The child is diagnosed with primary immunodeficiency and CNS stroke. He also had multiple time hospital admission and presently requires IVIG infusion 20gm/month for another 3 months. The expected cost of treatment is Rs. 40,000/month.

The family hails from Krishnagiri, Tamil Nadu and they consist of 4 members. The child's father is the primary source of income, and he is an operator in TVS motors and earns Rs 17,500/month. They also have a younger daughter who is 7 years old. The child's mother is a homemaker. The family has already spent around 13 lakhs for the child's treatment, and they are exhausted of their resources.

Hence, we request your help towards the treatment expense of the child.

Thanking you in advance,

Yours Sincerely,

Ms. Jisha Sara Jose
Medico Social Worker
