**Subject: Information regarding patient Baby of Neethu Maurya  
(5381000/2412251874090)**

We have a young patient Baby of Neethu, a 20-days-old male baby.

The family is originally from Uttar Pradesh but settled in Bangalore. The father is the only breadwinner of the family, and he is a construction worker earning Rs.800/- daily. They stay in a rented house with an amount of Rs.3,500/- The child's mother is a homemaker and this is their first born. She has a history of miscarriage. The father had not been working since the hospitalization and all this while his income was the only source they had. Currently, they are finding it difficult to manage between the treatment expenses, rent and food. They do not have any other social support and are financially and emotionally exhausted. The approximate cost of treatment is Rs. 3-4 lakhs. They have pledged all their ornaments to continue the treatment.

Hence, we humbly request your help to this deserving child's treatment.

Thanking you in advance.

Yours Sincerely,

Ms. Mili Marriam Mathew  
Medico Social Worker

Forwarded through,

Mr. Sachin.K. Thomas

HOD & Social Welfare Manager
