

Date: 05-May-2026

To
Child Vikas Foundation,

We would like to bring to your kind attention the case of **B/O Pallavi**, a 1 year 4 months old baby girl (UHID: KABHK.0000256781), who has been diagnosed with **Fibrosarcoma** on **30 January 2025**.

The child has already undergone a major and expensive surgery, the cost of which was approximately **INR 15–16 lakhs**. Post-surgery, she has been prescribed **Tab Entrectinib 100 mg**, which costs around **INR 80,000 per month**.

Following a recent PET-CT evaluation, the treating doctor has advised continuation of the same medication for **another one year**, which poses a significant financial burden on the family.

In view of the above, we kindly request **Child Vikas Foundation** and its generous donors to extend financial support for the ongoing treatment of this child. Your support will play a crucial role in ensuring continuity of her life-saving treatment.

We sincerely hope for your positive consideration and support.

Thanking you.

Yours sincerely,
For HCG Foundation

Hari Krishnan C
