Subject: Requesting Support for Arun K's medical treatment (UHID: 4994466)

This is a gentle request to consider supporting our young patient named Arun K., 10 years old, boy, who is on long-term treatment in our hospital for SLE. Since the medical condition of the child is complicated (also in treatment for ~~interstitial~~ lung disease) and in the view of severity of disease, he requires multiple medications and injections.

Arun's family hails from Dharmapuri, Tamil Nadu and they consist of 4 members. Child's father is the primary source of income, and he is working as a street vendor (sells fancy items) and earns approximately Rs. 15,000/- per month. The child's mother is a homemaker, and she is the primary caregiver. Presently, they have expressed financial concerns due to prolonged admission and exhaustion of resources. There is no other support system for the family.

Considering the long-term condition of the child and family, we request your support towards the treatment of this young patient.

Thanks & Regards,

Yours Sincerely,

Ms. Jisha Sara Jose
