The Child Vikas Foundation
Bengaluru,

Subject: Information regarding patient: Mohammed Faruck (5169104)

We have a young patient named Mohammed Faruck, 6 years old boy, presently under the treatment of PITU. The child is a known case of nephrotic syndrome, and presently on HFNC support due Bronchopneumonia. The child was treated in PICU and later shifted to PITU. According to the treating team he requires prolonged care in the hospital.

The child's family hails from Kurnool, Andhra Pradesh and they consists of 4 members. Since 2020, the child is taken care by the maternal grandparents and maternal uncle. There is no support or assistance from the child's parents. The child's maternal uncle is the primary source of income, and he is working as a helper in a welding shop and earns only Rs. 400/day. For the past 3 years the child was under treatment in Nellore and was referred to our hospital for further care. According to the assessment they are from a low socioeconomic background and exhausted of their financial resources, and requesting your support towards the medical expenses of the child.

Thanking you in advance.

Yours Sincerely,

30/10/24

Ms. Jisha Sara Jose
