7/2/2025

To whomsoever it may concern.

Respected Sir/Ma'am,

UHID 5217165 / 2501251791626
MS: THANUSHREE V
5217165 7Y 6M 26D / F
PAEDIATRIC MEDICINE WARD A1 Floor - B BLC
B NO: 1003 25/01/2025 13:55:58

This is regarding child named Thanushree,
7y 6m old female admitted with com to our
hospital on 25/1/2025.

Child has come with complaints of fever and
cough since 9 days.

Initial X-ray showed lobar pneumonia, in view of
worsening distress and fever spikes repeat X-ray
done showed complicated pneumonia with pleural
effusion.

Intercostal drainage tube was put and continued on
higher antibiotics (Inj Ceftriaxone for 14 days and
Vancomycin for 10 days). During the course of hospital
stay child improved gradually with no fever and
no oxygen requirement currently.

Child is planned for continuation of hospital stay
till the ICD drain output is nil/minimal.
Total duration of hospital stay was 14 days and
estimated bill of around 1.2 lakhs.

Parents have been counselled regarding the same.
Kindly do the needful.

Thank you

DR. ANJANA GONQUINHA
