To,

The Child Vikas Foundation
Bengaluru

Dated: 27/11/2025

Dear Sir / Madam,

Subject: Requesting support for D Yuvaraj's medical treatment

D. Yuvaraj (5322847) is a 15-year-old boy presently under the treatment of Pediatric Medicine Unit – II. Initially he was admitted in the month of September 2025 due to fever, altered behavior and abnormal movement of limbs. He is diagnosed with Acute Encephalitis Syndrome and Inj. Rituximab was administered regularly. Presently he is admitted due to worsening of condition and has loose stools with infection. He is on iv antibiotics and according to the treatment team Yuvaraj requires prolonged hospital care.

Yuvaraj's family hails from Ananthpur, Andhra Pradesh and they consist of 6 members. The primary source of income to the family is Yuvaraj's father and he is a farmer. He also goes for daily wage work according to the season and mother is a homemaker. The family has already spent more than 2 lakhs for treatment in outside hospital and later shifted to SJMCH for further management of illness. They do not have any other sources of income or support, and presently due to continuous hospitalization they are exhausted of resources. As per our assessment, they are from a low socio-economic background.

Hence, we kindly request your support towards Yuvaraj's medical expenses.

Thanking you in advance,

Ms. Jisha Sara Jose

Medico Social Worker

Forwarded Through,

27/11/25

Mr. Sachin K. Thomas
