BANGALORE

This is regarding Master Ravi Shankar's medical case. He has been successfully treated and discharged. When master Ravi Shankar admitted initially he has been diagnosed with NHL with Brain Mets. He was operated and given the treatment of Frontal Omayar reservoir placement (surgical procedure).

Now he has been discharged and he needs to visit our hospital on monthly basis for normal checkups.

Thanks for bringing smile on Master Ravi Shankar's face.

We look for your cooperation for another child.

Thanks & Regards

Hospital Recommendation letter

Date: 06/04/2017

To,

Child Vikas foundation
Bangalore

Name of the Child: Ravishankar

Age: 8 Gender: Male

Medical Diagnosis: NHL with Brain Mets

● Suggested treatment: Frontal Omayar Resaviour Placement and Radiation

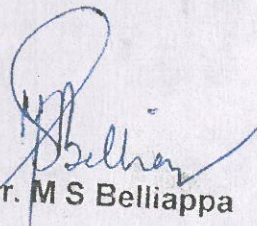

Proposed date of surgery / treatment: Surgery is required as early as possible followed by Radiation (3DCRT- 10 fractions) for 4 months

Estimated cost of treatment (Break ups): Frontal Omayar Resaviour placement – INR 61,520 + Radiation INR 70000 = Total Cost INR – 1,31,520

This is to certify that the above referred case is critically ill. The child come from an econcomically weaker section and requires support for medical treatment expense. We here by recommend you this case for financial assistance. The above mentioned estimate is approximation for surgery treatment and in the event of any complications the expenses may exceed the estimated cost.
